PHN concluded an agreement on leasing office space in INTRACO Prime with PERN

Monday, September 6, 2021 - 10:52

Polski Holding Nieruchomości concluded an agreement with PERN on leasing office space in INTRACO Prime located in Warsaw's Muranów district. PERN will lease two floors of the 8-storey A-class office building, which is scheduled for commissioning in early 2022.

The agreement with PERN, a leader on the Polish raw material and fuel logistics market, concerns the long-term lease of a total area of 3,500 sq.m.

INTRACO Prime is a modern office building with an area of approx. 13,000 sq.m. The rental area of a typical floor is 1,700 sq.m. When designing the office building, we took into account the latest trends in commercial construction, which is why the space can be freely rearranged. The ground floor has retail and service premises.

"We have been cooperating with PERN for a long period of time and we are pleased that we can offer such a high standard of services in a state-of-the-art office building to such an important partner. We are hoping that in the near future, we will conclude lease agreements with other clients with whom we are conducting intensive discussion," said **Tomasz Sztonyk**, Vice President for Managing Property Assets, Polski Holding Nieruchomości.

"Convenient location in the city center, high ecological standards and the ability to flexibly arrange space — these are the main assets of the INTRACO Prime project. In accordance with the concluded agreement, we will move to a new location in the second half of the next year, although in fact we will remain at the same location in Warsaw," emphasizes **Mateusz Radecki**, Vice President of PERN.
