#### Area:

10900,00

#### Project costs:

PLN 14m

#### Main advantages:

- Attractive location in the center of Gdynia
- Wide range of services provided

- Fully automated devices

### **Description:**

Marina Yacht Park is a modern marina, which since the 2019 sailing season has made the Polish coast of the Baltic Sea even more attractive. With functional facilities tailored to the needs of the most demanding sailors and a state-of-the-art management and booking system, Marina Yacht Park is ideal for receiving yachts from Poland and abroad, and is friendly to permanent shipowners.

Marina Yacht Park has 120 units with access to water and electricity and perfect infrastructure. 72 berths are intended for vessels shorter than 14 meters (10A), 42 for vessels shorter than 12 meters and 6 berths for vessels below 10 meters. The depth of the marina allows it to accept vessels with a draught of up to 8 meters. In addition, Marina Yacht Park has 8 places for docking water scooters, small RIB units and training boats. It includes specially designed floating piers for this type of vessels.

The marina meets high ecological standards, providing sanitary sewage collection points, chemical toilets, and waste segregation points, and the nearby gas station located on the wharf allows safe refueling. The marina is fenced off and constantly monitored.

The project also includes a functional harbor master's office with an area of over 300 square meters, which includes social facilities, 15 showers, toilets, laundry room, boatswain's room, forecastle and a room for training and meetings.

***Marina Yacht Park is open all year round in summer and winter season:***

- ***SUMMER SEASON: from 1st May to 31st October***
- ***WINTER SEASON: from 1st November to 30th April***
